

Identification Brainstorm

- Main test is IOU covered schools and non-IOU covered schools in districts with both. The comparison will be synthetic non-treated group
- Do with the target EEMs that could effect
- Robustness check with bioler only measures
- Other controls:
 - Capital expenditures
 - Matching requirements

Background needs:

- Full text of law
- Maps of districts and IOU boundaries
- Pictures of typicall measures

Supplemental Questions:

- What if schools were already very efficient and didn't need EEM upgrades?
-
